What If I See Dumping in Drains?

If you see dumping or spills of paint, motor oil, etc. down a storm drain, report it to the City of Mukilteo at (425) 263-8088.

Everything drains to the beach

WSU Extension programs are open to all without discrimination.

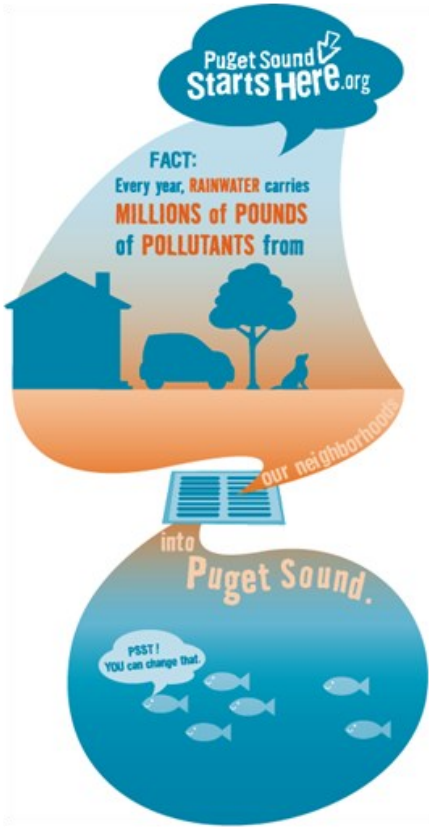
WSU BEACH WATCHERS SNOHOMISH COUNTY

Only Rain Down the Drain

Storm Drain Marking Volunteer Opportunity



Help remind others to keep pollution out of Puget Sound

What Would I Be Doing?

Volunteer as an individual, as a family, or with a group. You and your group will be given a storm drain marking kit with everything you need to install the "No Dumping / Drains to Sound" markers.

A WSU Beach Watcher can accompany you and provide instruction on how to place markers properly and safely.

How Much Can I Do?

As much as you want. You can place a specific number of storm drain markers, or spend a set amount of time. You choose!

Why Is This Important?

Rainwater carries millions of pounds of pollutants from our neighborhoods into our streams and Puget Sound every year. The oils, soaps, pet waste, fertilizers and chemicals that leave our yards and streets go untreated! This can affect our ability to spend time in the water, harvest from local beaches and negatively impact the Orca, crab, salmon and other wildlife that live there.

Markers are a reminder that storm drains connect directly to streams and Puget Sound.
