

Master Gardener Program

WASHINGTON STATE UNIVERSITY
EXTENSION

Neely Homestead Garden
5311 South 237th Place, Kent * Saturdays, 10 until 11 a.m.

FREE 2016 Workshops

Bring your questions, experiences, and love of gardening to these informative classes taught by Master Gardeners and other experts.

Due to space limitations, pre-registration is required.

Contact Sharon at 253-315-2198.

April 22

Vegetable Gardening – *D. Homer, Master Gardener*

Learn the basics of vegetable gardening, site selection, soil testing and amending, crop selection and rotation.

May 16

Straw Bale Gardening – *C. Grimes, Master Gardener*

Learn how you can benefit from this new and different style of raised bed/container gardening. Learn the basics of constructing and preparing the bales and how to use them to grow vegetables, herbs and flowers.

June 25

Growing Tomatoes in the Pacific Northwest – *M. Dillon, Master Gardener*

This presentation will cover planting, staking, fertilizing, and general care. Also problems and diseases, harvesting and seed saving, and varieties and trends.

July 23

Stop Those Garden Runaways! – *S. Shaw, Noxious Weed Control Program
King County Department of Natural Resources and Parks*

Learn about invasive plants and noxious weeds that are causing problems in our farms, forests and natural areas. Find out what's noxious and what's just obnoxious!
